SLASHCART

Frontend Developers Assignment

We're excited to invite you to participate in the **Frontend Developers' Assignment** for our upcoming hiring round at **SlashCart**.

This assignment is an opportunity for you to showcase your frontend development skills and eye for detail. The candidates who submit high-quality work will be considered for open frontend roles at our company.

■ Assignment Overview

Your task is to **convert a provided Figma design into a responsive HTML/CSS/JS layout**. You are expected to closely follow the provided design, prototype, and video walkthrough to implement the layout as accurately as possible.

■ Resources Provided

- ■ **Assignment Walkthrough Video:** Watch Here
- ■ **Figma Design File:** View Design
- ■ **Figma Interactive Prototype:** View Prototype

■ Requirements

Convert the provided design into clean, semantic HTML5, modern CSS (or SCSS), and JavaScript. Ensure the design is **fully responsive** across common screen sizes (desktop, tablet, mobile). Implement necessary interactivity for components like sliders, menus, tabs, etc. Use best practices in structuring your code (folder structure, naming conventions, modularity). Pixel-perfect implementation is highly encouraged.

■ Submission Guidelines

You may upload your project to any live server or hosting platform (e.g., GitHub Pages, Vercel, Netlify) and **share the live URL** with us. Alternatively, you may also zip your project folder and name it using your full name (e.g., *JohnDoe_SlashCart_Assignment.zip*), then upload it to Google Drive or WeTransfer and **share the download link**. Please include a **README** file with: Your name and contact details Any notes or instructions for reviewers Tools or frameworks used (if any)

■ Deadline

Please submit your completed assignment by **14th August, 11:59 PM (your local time)**.

We're looking forward to seeing your work! If you have any questions during the assignment, feel free to reach out.

Best of luck!
